Cookie Policy

Pick A Pier Ltd. (PickAPier) use certain monitoring and tracking technologies, such as cookies, beacons, pixels, tags, and scripts (collectively, "**Cookies**"). These technologies are used in order to maintain, provide, and improve our platform and its services (the "**Platform**"), and in order to provide you with a better experience (for instance, in order to track users' preferences, to better secure our Platform, to identify technical issues, and to monitor and improve the overall performance of our Platform).

This page contains information on what Cookies are, the Cookies used on our Platform, how to switch Cookies off in your browser, and some useful links for further reading on the subject. If it does not provide the information you were looking for, or you have any further questions about the use of Cookies on our Platform, please email privacy@pickapier.com

For more information about our general privacy practices, please visit our Privacy Policy

What are Cookies?

Cookies are small text files that are stored by the browser on your computer or mobile device (for example, Google Chrome or Safari). They allow websites to store things like user preferences. You can think of Cookies as providing a so-called memory for the Platform, so that it can recognize you when you come back and respond appropriately.

How do we use Cookies?

Performance Cookies: This type of cookie helps us to secure and maintain our Platform, and remembers your preferences for tools found on the Platform, so you don't have to re-set them each time you visit.

Analytics Cookies: Every time someone visits our Platform, the analytics services we use generate Cookies which can tell us whether or not you have visited the Platform in the past, and provide additional information regarding how our users use our Platform (such as where users tend to click on our Platform). Your browser will tell us if you have these Cookies and, if you don't, we generate new ones. This allows us to track how many individual users we have and how often they visit the Platform.

Registration Cookies: When you register and sign into our Platform, we generate Cookies that let us know whether you are signed in or not.

Our servers use these Cookies to work out which account you are signed in with and if you are allowed access to a particular service.

While you are signed into our Platform, we have the ability to combine information from your registration Cookies with analytics Cookies, which we can use to identify which pages you have seen.

Third Party Integration Cookies: On some of our Platforms, Facebook may also set their own Cookies if you choose to sign in through Facebook Connect. They do this to track the performance of their applications that are integrated with our Platform, or to customize their services for you. Because of how Cookies work, we cannot access these Cookies, nor can Facebook access the data in Cookies we use on our Platform.

Which Cookies do we use?

Cookies Source	Purpose
Google Analytics	Analytics
Wix	Registration, Analytics & Performance
(Facebook)	(Third Party Integration)

How can you turn Cookies off?

All modern web browsers allow you to change your cookie settings. You can usually find these settings in the 'Options' or 'Preferences' menu of your browser. In order to understand these settings, the following links may be helpful or you can use the 'Help' option in your browser for more details.

- Cookie settings in Internet Explorer
- Cookie settings in Chrome
- Cookie settings in Safari Web and iOS

Some web browsers may transmit "Do Not Track" signals to websites with which the browser communicates, telling the site not to follow its online movements. We currently do not respond to such "Do Not Track" signals.
